Career Objective

To kickstart my career as a Software Developer by leveraging expertise in front-end and back-end technologies to deliver responsive, user-friendly, and scalable web applications. Committed to continuous learning, adapting to emerging technologies, and contributing to innovative, high-impact projects that drive business value.

Education

University of Visvesvaraya College of Engineering 2022 – 2026
BTech ISE *CGPA: 8.68*

Shree Sangameshwar PU science College, Bagalkot 2020 – 2022
PUC / 12th *Percentage: 96.88*

Coursework

Courses: Object-Oriented Programming, Data Structures & Algorithms, Operating System, DBMS, Computer Networks

Skills

Languages: C, C++, Java (OOP), HTML, CSS, JavaScript, SQL
Databases: MongoDB (NoSQL), PostgreSQL
Frameworks & Libraries: React.js, Node.js
Tools & Platforms: Git, GitHub, VS Code, Docker, Postman, Canva, Figma
Methodologies & Practices: Agile, Scrum, Jira

Projects

Connectify | *React.js, Node.js, Express, MongoDB, Socket.IO, Cloudinary (In Progress)*
• Developing a full-stack real-time chat app with user authentication, live messaging, and chat history storage using Socket.IO and MongoDB.
• Designed a responsive UI and secured API endpoints with JWT-based authentication.
• Building scalable architecture with modular Express routes and planning deployment with Nginx and cloud hosting.

Weather Forecast Website | *HTML, CSS, JavaScript, OpenWeatherMap API* GitHub Repo
• Created a responsive web app that displays real-time weather data for multiple cities using the OpenWeatherMap API.
• Enabled users to search and view temperature, humidity, and weather conditions dynamically using JavaScript.
• Designed an intuitive UI with clean layout and smooth transitions for an enhanced user experience.

Pragati.codes – Personal Developer Portfolio | *HTML, CSS, JavaScript , React.js, (Ongoing)*
• Building a personal portfolio website using React and Tailwind CSS to showcase my technical projects, skills, and resume in a modern, responsive format.
• Optimized for both desktop and mobile devices with clean UI, smooth animations, and intuitive project navigation.
• Integrated resume download and a real-time contact form using **Email JS** to allow direct messaging without a backend.
Created a custom **personal logo** to establish unique branding and enhance the site's professional appeal.

Myntra Clone | *HTML, CSS, JavaScript*
• Built a fully responsive front-end clone of Myntra's homepage using HTML and CSS with pixel-accurate styling.
• Added JavaScript functionality for navigation interactivity, product listing behaviour, and UI responsiveness.
